Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1724

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. It is submitted that the "iron tubes", "DC switch", "enclosure", "conveyor", "brackets", "rain shield", "scrubber", "door", "guide shaft", "drive shaft", "door", "spring loaded shaft", "guide roller", "strings", "clarifier", and "room" described in the instant specification appear to require a drawing for a proper description of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81. No new matter may be introduced in the required drawing.

35 U.S.C. 112, first paragraph, requires the specification to be written in "full, clear, concise, and exact terms."

The specification is replete with terms which are not clear, concise and exact. The specification should be revised carefully in order to comply with 35 U.S.C. 112, first paragraph. For example, in the specification on page 1 line 9 "expansive", in lines 11, 16, and 20 "CL", in

line 16 “weekend”, in line 17 “seeks and connect”, in claim 18 “solid :”, in lines 21 and 22 “these, being...molecules”, and in line 26 “especially” appear to be erroneous.

Claims 3-11 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only, and cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 3-11 not been further treated on the merits.

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1 “chord” and “loosing”, and in claim 2 “is” appear to be erroneous. In claim 1 “said tube’s attraction” and “it” lack clear antecedent basis. In claim 1 “very dry”, and in claim 2 “long and enclosed” and “surrounding walls” are vague and indefinite because it is unclear how these terms further limit the claims. Claim 1 is considered incomplete because it is essential to the instant process or method include a step for collecting said colloidal solids. Furthermore, claim 1 must be in one sentence form only. Note the format of the claims in the patent cited.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
